FOR KLAMATH FALLS.

There is need of a pooling of inter-
ests, enthusiasm and abilities on the
part of every man, woman and child
in Klamath Falls during the coming
Elks convention. It must be an ac-
tive pooling made dynamic in eager-
ness and willingness to co-operate
with the various committees that are
handling the brunt of the work to
assure the successful carrying out of
the big undertaking.

There is some little significance
outside of the numbers alone in the
coming of the visitors from all over
the state. Six thousand eyes are all-
seeing—and those eyes will not be
closed to the general tone and life
and business of Klamath Falls. Some
of the state's most representative
men will be here. Men who have
made their marks in business
are coming for the convention. They
will have a big purpose in mind—to
view the Klamath County that they
have heard so much about. Perhaps
future industrial sites are in their
minds—perhaps a spot to make their
homes.

When you do something in aid of
the Elks convention remember that
it is not alone for the Elks but for
Klamath Falls and the entire county.
True enough the Elks are bringing
the visitors here. Its up to the peo-
ples to make their stay enjoyable. Its
up to everyone to bring Klamath
Falls vitally before the minds of our
visitors from over the state as the
place for future business sites and
home. A little effort expended, a bit
of unselfish co-operation will go far
toward accomplishing the end.

Before Lenine starts his little
scheme of world revolution he might
do well to pause a moment and re-
call the fate of a certain Dutchman
named Wilhelm who tried to shuffle
the cards way back in 1914.

The League of Nations the domi-
nant issue in the coming presidential
campaign—never. How about the
high cost of living and the good old
days when a fellow could get a glass
of beer along with a free lunch.

If Woodrow really wants to make-up
with the American fans he had bet-
ter bench Burleson and Baker and
put in a couple of real pinch-hitters.

Even Marshall Foch "fell" under
a volley of kisses from the English
damsels. The kiss spares neither
fame or fortune, poverty or penury
with its knockout punch. We would
not change it.

At the Theatres

Inch by inch, toward the edge of a
cliff on a deserted island, two men,
a white man and an Indian, advance.
They are fighting for love and for
life. The girl, who crouches on one
side, is hoping, hoping, praying that
one of them will win.

This is one of the dramatic scenes
in "A Fight for Love," which comes
to the Liberty Theatre tonight. And
Harry Carey's fight is a good one. He
clears himself of a charge of murder
and of unlicensed whiskey trading
and earns the big reward that his en-
emy covets.

E. B. Lewis and Jack Ford, scenar-
io writer and producer, respectively,
should both put themselves on the
back for the achievement. The scenes
are wonderfully beautiful as well as
thrilling, and the cast of Harry Carey,
Neva Gerber, Neola May and Joe
Harris is superb.

Howard Hickman, director of Bes-
sie Barriscale in her latest screen pro-
duction, "All of a Sudden Norma,"
which comes to the Liberty Wednes-
day afternoon, is one of the most
widely known men in the motion pic-
tures. He has played in support of
some of the screen's most famous
women stars and made a notable ap-
pearance in "Civilization."

Mr. Hickman ranks high in his pro-
fession. Before the camera or direct-
ing it his work has been of the high-
est order. He is also one of the most
popular men in pictures, not only
with the public but with the profes-
sion as well.

Mr. Hickman is now directing for
B. B. Productions, in which Miss Bar-
riscale is starred.

**TALLEST MAN BARS
DEMPSEY IN CLAIM**

Sport scribes wrote so much in
regard to Jess Willard's height
that R. E. Madsen, a rangy youth
of the west showed up at Toledo,
O., to size up the big Kansan. And
Madsen then put in a claim as the
world's tallest man—7 feet 6
inches—and there was no one
there to dispute him. But he
doesn't want to fight Dempsey.

The time is getting shorter every
day for you to do what should be
done before the Elks get here on
August 14, 15 and 16. What are you
doing?

**RIOTS CONTINUE
IN WINDY CITY**

CHICAGO, July 28.—Trouble be-
tween whites and negroes broke out
in the black belt today when Moses
Thomas, a negro, fired several shots
at a wagon load of white workmen
being taken to the south side factory.

A dozen negroes rushed to Thomas
assistance when a group of white's
tried to disarm him. The police quelled
the disturbance and no injuries
resulted. Rioting last night resulted
in the death of two negroes and the
injury of 50 whites and blacks, in-
cluding four patrolmen. White boys
throwing stones at a negro youth who
was bathing caused the general race
fight.

**PAYS BIG RANSOM TO GET
HIS BOY FROM MEXICANS.**

WASHINGTON, July 28.—Acting
on advices from the Mexican govern-
ment, who feared that his boy would
be murdered, John West Thompson,
American ranchman, paid 15000 peso,
the ransom demanded by bandits for
the release of his 14 year old son.
Secretary of State Lansing said that
the Mexican government had agreed
to refund the ransom and try to cap-
ture the bandits.

**AIRPLANES CARRY
PLAYERS TO LINKS**

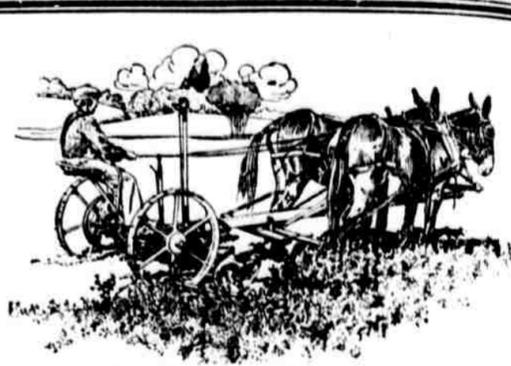

SAN FRANCISCO, July 28.—To
jump into an automobile for a run
out to the country club for a tennis
match or a round of the golf has
been a common practice in the past.
Now the airplane has supplanted the
automobile.

On a number of occasions recently
polo or golf players have flown to
field or links in their private air-
planes. Complaints came quickly. Polo
players said that the lighting of an
airplane on the field not only stamp-
eded their ponies but might prove
highly disastrous should one of the
machines fall among the spectators
or animals.

Golf players made the same com-
plaint in regard to the danger. They
went a little bit further however.
They said it interfered with their
game to have the birdmen flying over
them and because they distracted
them from their game, considered the
airplanes in the light of a new fang-
led hazard.

The result has been that at Del

Monte, where there is both a polo-
field and a couple of golf links, rules
and regulations to govern the flyers,
already have been promulgated and
posted on the fields for the benefit
of the airmen. They are prohibited
from landing on the polo field or the
links and provision is being made
for landing grounds a little distant
away.
If there is anything we can do
have Burleson's resignation re-
ad all they have to do is to call
us—Madras Pioneer

**A Boy Can Run a
John Deere Dain Mower**

While you are getting
things in shape for making
hay, put your boy on the
John Deere Mower and let
him do the cutting—he will
do it just as well and just
as easily as you can do it.

He will never have to back up
to get a start, even in the heaviest
hay. The knife starts cutting the
instant the mower is thrown in
gear—no lost motion.

You will see big advantages in
the drive on this machine—it's
extremely simple—the gears are
so placed that one set holds the
other set in mesh constantly.
The John Deere will cut all of
the grass for years to come—a
simple adjustment takes up all
lag in the cutter bar, without
affecting the centering of the
knife. If the knife ever needs re-
centering, a special adjustment is
provided.

The John Deere is the simplest,
most powerful and best-built
mower we have ever seen. We
know it will appeal to you.

Come in—it's to your advantage, to know all
about this mower before you buy. While at our store,
we want you to see the rest of our line of haying
and harvesting machinery. We have a line of
machines you can use with satisfaction and profit.

**Your Eyes
Need Care**

The eye is a very delicate
organ which needs care and
attention, if the sight is to
be retained. Many cases of
partial and total blindness
might have been prevented
by timely aid. The eyes
need care, and if more at-
tention were paid to them,
defective eyesight would be-
come a less serious matter.
For your own sake do not
be careless; do not take
chances with your sight.
Pay us a visit, and be care-
fully tested, so that you
may know if GLASSES
would improve your sight.
Prevention is better and
easier than cure.

WE TEST YOUR EYES
BY THE BEST METHODS.
